

WHAT IS FEATUREPLUS?

FEATUREPLUS is an easy to use telephony service that enables you to make voice calls across any broadband connection using your existing phones.

It offers you reduced call costs and free site to site calls whilst enabling you online access to a whole host of advanced calling features, which improve your productivity and image.

THE BENEFITS OF FEATUREPLUS

- There is no HUGE Capital outlay and no PBX required.
- NO NEW handsets are required
- Orderable, trackable and maintainable online.
- Customer Numbers are Portable*
- Lower Cost Calls
- FREE calls to your other FEATUREPLUS numbers, so FREE site to site and internal calls, meaning reduced bills.
- Plug and play hardware with a user friendly, intuitive 'On screen' system.
- Customers calls are never lost

* you don't need to lose existing number and have to reprint all of your stationery.

HOW DOES IT WORK?

The simple plug and play kits come pre-configured and are very easy to use. The 'On Screen' interface opens up access into a brand new world where you are in control of what happens to your telephone calls – be it Call handling or Call Management.

Calls are routed over your broadband connection through the **net:telecom** network, so you will benefit from our lower calling costs.

FEATUREPLUS

Couple this with FREE site to site calls and you will see a reduction of your telephone bills and yet improved functionality with your service.

WHY SHOULD YOU BUY IT?

FEATUREPLUS is ideal for SoHo's, small offices and companies with small multiple sites. **net:telecom** has made taking advantage of broadband to make and manage telephone calls simple, refreshing and cost effective.

SO, DO YOU WANT....?

- ✓ **A range of advanced calling features**
- ✓ **Cost Savings**
